Modified Student Device Usage Agreement

Due to the Coronavirus Outbreak, your student will be issued a computing device (Chromebook) and a charger to support their learning. Students will be issued these learning tools once this agreement is reviewed with parents/guardians, signed, and returned to school.

All devices and accessories assigned to students are the property of Prince George's County Public Schools and on loan to the student. The use of the computing device is a privilege, not a right. Appropriate and responsible use, as outlined in the Administrative Procedure 0700 (IT Services Acceptable Usage Guidelines) and below, is expected at all times. Inappropriate use will result in loss of privileges and will be subject to disciplinary action at the discretion of the building principal.

Responsible Use

- Devices are provided for instructional use and school-related activities only.
- Students should bring their fully charged device and power cords to all classes, unless specifically instructed not to do so by their teacher.
- Copyright laws must be followed at all times.
- Students shall make no attempt to physically adjust, repair, or alter the device, including the installation of file sharing and other unauthorized programs.
- Login and password information should remain private.
- Each device is assigned to an individual student. Students should never allow another student, friend, sibling, or any other person to use their computing device.
- The device and charger should be safeguarded from damage and reasonable steps taken to prevent theft.
- For more details, see the Student Rights and Responsibilities - Section 10

Safe and Appropriate Use

- The student will be held responsible for the careful use and protection of the equipment assigned to him/her.
- Upon request of a school official, the student shall return these items in good condition.
- Computing devices should not be used to take pictures without the consent of all persons being photographed. Cameras are to be turned off at all times except when being used as part of a class.
- Students will not use a computing device to personally attack, annoy, harass, or bully others. Any such activities will be reported to the appropriate local, state, or federal authorities; and appropriate consequences will be followed as outlined in the Acceptable Use Guidelines and Student Rights and Responsibilities Handbook.
- Students should be aware of personal safety when online and take appropriate measures to ensure their safety.
- For more details, see Student Use of Social Media in Schools - AP 5180 and Bullying, Harassment or Intimidation - AP 5143
