

Student Government Association Mission Statement

We, the dedicated leaders of tomorrow's today, challenge ourselves to always strive for excellence in order to form a more united student body in the following ways:

- To encourage and create student enthusiasm in school activities
- To be a contributing voice in our school
- To be a visible and an approachable outlet for the students
- To unite the student body for a common purpose of equality, fairness, and respect
- To exemplify our beliefs and live our mission statement in every student interaction
- To promote unity while respecting individuality and cultural diversity
- To build and maintain a tradition of excellence through creative expression
- To "Build a Better Hyattsville"
- To encourage total involvement, with participation in artistic, academic, and athletic activities
- To be that voice in our school.

By accomplishing all of the above, we will enhance our success and establish a foundation of Raising Student Voice Participation at Hyattsville Middle School.
