

Join us for 
early learning week!

FEBRUARY 1-5, 2021

Get up, get moving, get creative, and learn!

Five days of **FREE**, live-streamed programs for young learners, their adult care providers, and educators.

FREE interactive arts-integration programs led by Wolf Trap Early Learning Teaching Artists will delight, inspire, and support key developmental indicators for children up to age 6.

Registration is recommended but not required. Register today at yamd.org/early-learning-week and watch live on [facebook.com/young.audiences.md](https://www.facebook.com/young.audiences.md) and [youtube.com/youngaudiencesMD](https://www.youtube.com/youngaudiencesMD)

Family Workshop

Inspiring artists will guide children, families, and educators in using hands-on creativity to support learning and early childhood development.

PreK & Kindergarten Residencies

Literacy and STEM-based residencies engage PreK and Kindergarten students in interactive arts integration experiences while training educators to integrate the arts into their daily curriculum.

Baby Artsplay!™ Residencies

Fun-filled sessions use art (such as music, movement, drama, and storytelling) to support foundational skills like counting, rhythm, and movement and then impart those arts-integrated instructional skills in adults. Perfect for educators, caregivers, and children to ages 0-4.

Performing Arts Assemblies

Children up to age 6 and their caregivers will find inspiration in a live, online performance by a teaching artist.

**Lots of options!
