

JOIN US FOR

early learning week!

FEBRUARY 1-5, 2021

Five days of *FREE, live-streamed programs* for young learners and their families, caregivers, and educators. Join us each day for a series of arts-integrated programs led by our exceptional, Wolf Trap-trained teaching artists!

PreK + Kindergarten Residencies

PreK + Kindergarten embedded professional development residencies guide and support educators in multiple sessions to integrate the arts into their teaching and provide joyful, active learning experiences.

Baby Artsplay™ Residencies

Baby Artsplay!™ virtual teaching artist residencies engage children and care providers in fun-filled sessions that use art such as music, movement, drama, and storytelling to support foundational skills like counting, rhythm, movement, and more.

Assemblies + Family Workshops

Children and caregivers will find inspiration in live, online performances and virtual Family Workshops. These sessions are great for the whole family and aim to bring communities together to grow, have fun, and support childhood development!
