August 16, 2021

Greetings CHES Community:

Welcome to the 2021-2022 school year! As we embark on this new year journey, we look forward to seeing our students in person. While last school year was impacted by COVID, CHES continued towards excellence and student achievement. I look forward to the new school year with high expectations and much anticipation.

Each new school year is a new beginning and I sincerely believe that our CHES TEAM is well equipped for the exceptional year ahead. This year is the **opportunity** for our staff to reconnect with students and foster our ongoing positive school culture. As a parent and community member you will have the opportunity to **positively impact** the life of our students and staff by participating in our virtual school events.

Our goal this year is to increase the level of personalized instruction for all students to support significant achievement in all curriculum areas, across all student groups. To support this effort, we will focus on intentional professional development, collaborative planning, routine analysis of qualitative and quantitative student data. We look forward to our students “owning their learning” through project based models.

As we continue to navigate the journey to achievement, I want to assure you I am here to serve and support. Let’s work together to learn, grow, and succeed. “All Hands In: Together Everyone Achieves More”

Here’s to An Amazing Year,

Nina Lattimore , Principal
